

BEST HOME LIFTS IN MALAYSIA

NIBAV HOME LIFTS

Best Home Lifts Malaysia

- A self-supporting Nibav home lift, built with bulletproof glass, aircraft-grade aluminium and galvanized steel.
- It provides an elegant design, European safety standards, and zero impact on your home infrastructure.
- Our [Home Lifts Malaysia](#) consume less energy than a home appliance, require 90% less maintenance than its alternatives, and only need a small space to be installed.

Home Lifts Malaysia Models

- Our design can fit two people in the **Home Lifts Malaysia** and can reach up to four levels including the ground; our configuration alternatives are **Integrated** (Power on Top) or **Split** (Remote Power).
- You can choose door opening orientation, and you can even choose to have a dual exit per floor as an alternative.
- Our standard colours are **Pure White and Cream**; you can also choose from our custom colour range, which includes silver Grey, Pebble Grey, Terracotta, Jet Black and Gold.
- Australian Technology, European components and world-class industrial efficiency across our Southeast Asia factories is the mix that allows us to offer the best of all worlds yet at an affordable level.
